IMPORTANT CHANGES DURING THE YEAR

Report changes of any of the following types:

1. Acquisitions.

2. Leaseholder changes.

3. Extensions of service.

4. Estimated changes in revenues due to rate changes.

Sanitary District in 2000 was metered for most of customers for the first time. Metered rates have been a little less than projected. This will be monitored for 2001 and the appropriate action taken.

5. Obligations incurred or assumed, excluding commercial paper.

6. Formal proceedings with the Public Service Commission.

7. Any additional matters.

2000 Analytical Review DWCCA-4180-PJL

Dear Mrs. Rousar:

The Public Service Commission has completed their analytical review of your 2000 annual report. The primary purpose of our analytical review is to detect possible accounting related errors and to identify significant fluctuations from prior year's data, which are not sufficiently explained in the footnotes of your annual report. We have no questions, only the following comments.

1. During our review, we noted that in the footnotes for the Other Operating Revenues (Water) schedule on page W-4, regarding Account 463, it is explained that the district has no public fire protection rates. Please include the enclosed copy of the F-1 rate schedule applicable to service rendered on and after July 1, 1983, with the utilities records and bill for this charge in the future. A review of the 1997 through 1999 annual reports reveals that the utility did calculate and report the public fire protection charge in those years.

2. In the future, as directed in the head notes of the Water Operation & Maintenance Expenses schedule on page W-5, please provide an explanation of any expense account which changed by \$2,000 and 30% when compared to the previous year.

3. During our review, we noted that the utility did not report any depreciation expense on meters charged to sewer, (Account 110) or return on net investment in meters charged to sewer department, (Account 474). If the sewer department uses the water meter to measure sewer volume, all the water meter costs must be shared, including depreciation, return on rate base and taxes. Please review Section 4, Pages 10 and 11 of the Water Utility Reference Manual (enclosed) and properly allocate all water meter costs for 2001.

You may consider your review closed. Thank you for your efforts in preparing your 2000 annual report. If you have any questions, please feel free to contact me at (608) 267-9198 or by e?mail at leegep@psc.state.wi.us.

Sincerely,

Peter J. Leege

Subject: North Cape Sanitary District letter

Although you did not require a response to your letter dated 7-11-2001 to the District, I offer the following comments. Item #1 discussed a public fire protection rate that was eliminated with a rate increase in 1999. 4180-WR-100. Item #2 will be done for 2001. Item #3 discusses meter costs to the sewer utility. There is no sewer utility so this comment is not applicable. Please make a note of this for your future comments.

If any additional questions, please contact James R Frechette, CPA at Copper05@elknet.net or (262)-594-3995.

Sincerely,

James R Frechette, CPA

A review of our records shows that there had been a rate increase after which the F-1 was not removed from rate file. PJJ
